

WHEEL CHOCKS U.S. PATENT #5,685,397

TRACK & RAIL PRODUCTS

Meets OSHA standards: 1910.30, 1910.110(b)(15)(iii), 1910.111(b)(13)(v)

- High-durability polyurethane
- Fluorescent safety orange
- “Super” magnets anchor chock to rail
- Resistant to impact, weather and most yard chemicals

The concave magnetic base fits to the rail for greater stability and security. The removable handle is constructed of high-grade aircraft aluminum and is innovatively designed to keep the installer at a safe distance, keeping hands and head clear.

Dual Wheel Chock Assembly (8921).

Handle and chock are sold together as a kit (8006WH) or as separate items (Handle 8006H, Chock 8006) and are available for immediate delivery.
