

# END OF CAR DIAPHRAGM

## Tubular Diaphragms

Sizes from 6"OD to 10"OD.

Manufactured with or without gutter strip.

All metal parts made in-house from stainless or aluminum.

Made to your specifications or adapt one of our designs.

ISO9001:2008  
Quality Management  
System

Central Sales & Service has been manufacturing End Of Car Diaphragms since 1985.

We can create designs to meet your specifications, and also have a multitude of pre-existing designs that can be used or modified to fit your application.

Tubes are made from a sheet of 70 durometer Neoprene, reinforced with two plies of fabric and vulcanized longitudinally to size and length.

Please contact Central Sales for more information.
